The models and equipment versions illustrated and described in this brochure and some of the services listed are not available in all countries. Some of the cars illustrated are equipped with optional features for which an extra charge is made. Details concerning the delivery specifications, appearance, performances, dimensions and weights, fuel consumption and running costs of the vehicle were correct to the best of our knowledge at the time of going to press. Deviations from the colours and shapes shown in the illustrations may occur. No liability is accepted for errors and printing errors. The right to introduce modifications is reserved. Not to be reproduced, including in part, without the written approval of AUDI AG.

Future

TT
Audi TT Coupé

Audi virtual cockpit. High-tech at the highest level. Premiered in the new Audi TT Coupé. The driver determines how the instrument cluster—a high-resolution LCD screen—presents information: either as classic round dials or through futuristic full-screen views. Driver-focused. Innovative. Progressive. Easy to switch via the multifunction steering wheel. For a quick change of context. A clear statement of the technological benchmark in the new Audi TT Coupé.

starts here.
A silhouette that sets itself apart. Uneqaulled. Both in the past and now. The new Audi TT Coupé – yet another milestone in the success story. Its whole appearance is energetic – from the horizontal design of the vehicle's rear to its taut surfaces. Dynamic and athletic. Just like a body defined down to the last detail. Low, wide, stretched. No superfluous lines. Absolute precision, single-mindedly pursuing a clear aim: to impress with powerful aesthetics.

The new Audi TT Coupé – one of the most progressive sports cars of our time.

Stand out.
Different way of thinking.

A body line that takes up the design of the first Audi TT Coupé – and consistently refines it. A statement. Shaped by pure design. Crisp edges indicate strength of character. Powerfully staged. With striking air inlets. The new three-dimensional design of the Singleframe is integrated stylishly in the horizontal front end. The Audi rings on the bonnet. A position that indicates its sports car genes and immediately sets your pulse racing. Numerous details round off the appearance. Take the tank cap in aluminium design with visible screw thread. Streamlined. Sporty. A tribute to its predecessors. Yet still a completely new creation.
Making

Visibly more expressive. Thanks to the optional Audi Matrix LED headlights in 3D design with characteristic horizontal and vertical elements. Starting at the front and continued visually in the Singleframe and on the bonnet. Futuristic, progressive. Made up of single light emitting diodes, recognising oncoming traffic and optimising the illumination of the surrounding area. The rear end causes a stir too. Equipped with LED technology as standard and with a continuous brake light. The light concept of the new Audi TT Coupé – design language that needs no translation.

a mark.
Focus on the

The interior of the new Audi TT Coupé: remarkably expressive. Because it combines design, sportiness and maximum comfort. Personalise it. By way of coloured interior elements on the centre console, for instance, or seats and vents in turbine design. Convincing and top class. Just like the optional S sport seats – available for the first time in the new Audi TT Coupé. Plus innovative and intuitive air-conditioning controls in the dashboard. All with the aim of concentrating at all times on the most important thing: driving.
Take control.

Even sportier, even less compromising. With the new quattro® permanent all-wheel drive. Making dynamic driving in the new Audi TT Coupé even more controlled. Precise and gripping. For this, the drive force is distributed variably to the axles. With a rear emphasis. Thus profoundly maximizing driving enjoyment. Thanks to special tuning for even sportier lateral dynamics. And for improved vehicle-specific driving behaviour. Where you set the course.

control.

The Audi TT Experience
Increase torque every moment. Powerful and efficient engines incessantly power the new Audi TT Coupé to maximum performance. State-of-the-art transmission technology guarantees fast gear changes. A complex lightweight engineering concept reduces consumption, increases efficiency and further lowers the centre of gravity - thus improving handling.

Experience limitless driving enjoyment.

Remain uncompromising.
Standards redefined.

The new Audi TT Coupé. An icon returns.
Innovations

The world is constantly changing. Technology is advancing at an ever faster pace. And in the process, more and more opportunities are opening up to you — nowhere more so than in the field of mobility. We are playing an instrumental role in shaping this progress with Vorsprung durch Technik. Striving to provide you with technology that enriches your life. Making sure that we don’t just satisfy your expectations of mobility both today and in the future, but continue to surpass them.

... durch Technik.

The future of connected mobility.

The future of all-wheel drive.

The future of CO₂ reduced mobility.

The future of efficient technologies.

The future of hybrid technologies.

The future of all-wheel drive.

The future of electric and hybrid versions.
Lightweight expertise
Less weight. More savings, power and endurance. Audi lightweight technology.

What started with lightweight body construction has now made its way into nearly all Audi's, combining material advantages and efficiency, intelligent design principles and refined assembly processes into an overall concept.

Aerodynamics
Less drag, more efficiency. Thanks to the consistently aerodynamic styling of the vehicle's lines, its underbody and spoiler edges – in order to achieve the best possible form for aerodynamic efficiency. Not forgetting tyres with reduced rolling resistance. All tested in the Audi wind tunnel at up to 300 km/h.

Transmission expertise
Improved efficiency thanks to improved transmission ratios. A higher torque output makes longer ratios possible, especially for Audi ultra with Audi Space Frame (ASF®).

Lifeflight expertise
Building an Audi is an extremely complicated business. And yet a simple principle applies for all models: all vehicle components interlock precisely in order to produce emission-reducing synergies. What started in accordance with this principle at the end of the 1980s with Audi lightweight construction and the revolutionary Audi Space Frame (ASF®) is now known as the reversal of the weight spiral: every lightweight component has an impact on other components, which can in turn be made smaller. In this way, existing forms and materials are continuously being improved with regard to their functionality, the lowest possible weight and their production process. With the goal of building vehicles that are even more efficient and take more sparing use of resources. The same is true for all components:

Recuperation
Braking that leads to even more efficient driving. With brake energy recovery – part of the kinetic energy produced when braking and coasting is temporarily stored in the vehicle's battery and then used when accelerating. Depending on the driving cycle, this can save up to 3% of fuel.

Engine expertise
Perfectly combined. The future of efficient technologies.

Audi ultra
Powerfully and efficiently driven. By Audi ultra with efficiency technologies in the engine sector.
Have the road completely under control, thanks to permanent distribution of the drive force to all four wheels. The rear axle is variably controlled via a hydraulic multi-plate clutch. Always as the situation demands, always selective. Optionally, with rear emphasis. Experience handling stability, dynamism and agility on every level and combat the effects of over- and understeer with quattro®. For increased traction and superior propulsive power. Tame any road. And always keep your eyes set on where you’re heading. In bends. On straights. Over any surface. For a fascinating experience that sticks. To the road – and in your mind.
Every movement originates from something. Something that sets it off, aside. The engine in your Audi can also be traced back to an initial spark of inspiration: higher power with lower fuel consumption. These apparently conflicting aims are united in the revolutionary drive technology: TFSI®.

Maximum power. Put to maximum use.

Intelligent performance

Audi TFSI® engines attain a particularly high compression rate. The result: outstanding efficiency combined with optimum performance. Substituting supercharging for cubic capacity has the effect of considerably reducing engine size and weight – while performance remains as impressively dynamic as ever. For power delivery that will win you over from the word go.
The permanent all-wheel drive system distributes the drive forces to each individual wheel, offering superior traction in all conditions.

**Stronic®**
The sporty, efficient dual-clutch transmission allows you to switch gears with lightning speed without any perceptible break in propulsive power.

**Electromechanical power steering**
Through the speed-sensitive steering assistance, the power steering ensures a precise steering response even at high speeds, helping you to countersteer and make tight turns with ease.

**Audi drive select®**
Audi drive select® lets you adapt the driving characteristics of your Audi to your requirements. At the push of a button, sportier, more comfortable, more balanced or more economical. It’s entirely up to you.

**Progressive steering**
Enhanced driving dynamics due to a more direct steering ratio as well as increased driving comfort in everyday driving conditions due to reduced steering effort. The progressive steering provides you with an impressive driving experience thanks to the variable power steering assistance based on the steering angle.

**Quattro®**
And to ensure you always benefit from the driving characteristics of your Audi to your requirements, Audi quattro drives the front wheels or both axles. Gran Turismo, even comfortably, on wet surfaces or in winter weather - a permanent plus for you.

**S tronic®**
The sporty, efficient dual-clutch transmission allows you to switch gears with lightning speed without any perceptible break in propulsive power.

**Electromechanical power steering**
Through the speed-sensitive steering assistance, the power steering ensures a precise steering response even at high speeds, helping you to countersteer and make tight turns with ease.

**Quattro®**
And to ensure you always benefit from the driving characteristics of your Audi to your requirements, Audi quattro drives the front wheels or both axles. Gran Turismo, even comfortably, on wet surfaces or in winter weather - a permanent plus for you.
Secondary collision brake assist
prevents the vehicle rolling away uncontrolled after an accident in certain situations and can avoid secondary collisions in these cases.

Park assist
helps you to manoeuvre into parallel and perpendicular parking spaces as well as out of parallel parking spaces again with a virtually automatic steering process.

Audi Matrix LED headlights
track the road ahead and illuminate it according to the situation with their innovative LED layout for even greater safety.

Parking system plus
provides optimal assistance for parking and manoeuvring by showing visual displays of the vehicle’s surroundings.

Wherever you’re heading, peace of mind will be your constant companion.

With the assistance systems in your Audi.

Each drive is different, yet they all have one thing in common – the feeling of being protected that you get from every Audi. All driver assistance systems in your Audi help you during your journey and guarantee even greater comfort when you’re on the road. Get to know the most important driver assistance systems.

Assistance systems

Please note: The systems work only within system limits and assist the driver. However, the driver remains responsible for driving the vehicle and is required to be attentive at all times.
With MMI® navigation plus with MMI® touch you can let yourself be guided to your destinations with even greater ease by the 3D map view and 3-dimensional display of places of interest and landmark buildings.

Control and alter driver assistance systems, vehicle settings as well as climate control and various functions quickly and easily.

Display the covers of your music collection on all available media sources such as jukebox, inserted SD cards, Audi music interface, CDs or DVDs.

Operate the individual components of the Multi Media Interface (MMI®) even more easily using the MMI® touch. The touch function integrates even more easily into familiar operating sequences. For handwriting recognition, like a smartphone, with multi-touch gestures. Just two function keys are all you need for selections in the basic menu and the context-based options. Two toggle switches provide direct access to the phone, navigation/map, media or radio.

The MM1® – intelligent, individual, intuitive.

Simplicity

The world of mobile infotainment completely redefined: the Multi Media Interface (MMI®). Phoning or navigating all highly intuitive, highly functional and highly convenient – not least thanks to voice control and brilliant representation via the Audi virtual cockpit in the new Audi TT Coupé.

With MMI® radio or the optional MMI® navigation plus with MMI® touch, everything will be child’s play for you.

Keep everything under control. The Audi virtual cockpit and numerous MMI® functions can be operated ergonomically from the TT sport leather steering wheel with multifunction fitted as standard.

Make phone calls safely and easily using the hands-free facility: simply select the number to dial from your contacts in the MMI® or enter the number intuitively via the optional MMI® touch.
Concentrated.

Audi virtual cockpit

Versatile
The innovative, fully digital instrument cluster displays the respective information flexibly and according to requirements. The map representation, radio/media information and much more are conveniently displayed on the 10.2-inch screen. The space between is used for additional information.

Classical
High-resolution, razor sharp. The large round instruments for speed and engine speed are emphasised with this display version. The space between is used for additional information.

Progressive
The innovative, fully digital instrument cluster displays the respective information flexibly and according to requirements. The navigation map is displayed on a 10.2-inch screen in full width and impressive brilliance.

Focused.

Extraordinarily clear. The new instrument cluster. Brilliantly designed, brilliant resolution and representation. Unparalleled innovation. And intuitive right from the word go. It can be used to control all functions and MMI® services from onboard computer to navigation. This is pioneering technology. The LCD screen has place of pride in the dashboard. At an optimum viewing height for the driver.

There is a choice of two display variants: classical or progressive. Switch conveniently using the TT sport leather steering wheel with multifunction. Simply impressive. Further proof of Vorsprung durch Technik.
As unique as you are. The equipment options.

Sportiness, comfort, design, functionality—whatever you demand of your Audi, it offers you a wealth of custom options. Audi equipment versions are varied and high-quality and you can tailor them entirely to your needs.
Character takes on many forms.
Here is one!!

What makes an Audi your Audi? Vehicle equipment entirely tailored to your needs. There are a wide range of options available to you for giving your vehicle the exact touch you have in mind. More sporty? More elegant? Let yourself be inspired.

**Audi TT Coupé in Vegas yellow**
- Audi Sport cast aluminium wheels in 5-twin-spoke design in matte titanium look, gloss turned finish
- S sport seats in fine Nappa leather, rotor grey
- Inlays in matte brushed aluminium
- Bang & Olufsen® Sound System
- TT Sport leather steering wheel with multifunction plus
- S line exterior package
- S line sport package
The right driving force for every personality.

The 2.0 TFSI® has a high compression ratio, highly efficient combustion and outstanding efficiency. In short, it delivers more power whilst using less fuel and producing fewer emissions.

Engines

The Audi TFSI® engines offer outstanding efficiency and improved performance whilst at the same time retaining their dynamism. The 2.0 TFSI® quattro® in the new Audi TT Coupé, for example, has a power output of 169 kW, enabling the car to accelerate from 0 to 100 km/h in 5.3 seconds and reach a top speed of 250 km/h.

TT Coupé 2.0 TFSI® (169 kW)

The Audi TFSI® engines offer outstanding efficiency and improved performance whilst at the same time retaining their dynamism.

The 2.0 TFSI® quattro® in the new Audi TT Coupé, for example, has a power output of 169 kW, enabling the car to accelerate from 0 to 100 km/h in 5.3 seconds and reach a top speed of 250 km/h.

TT Coupé 2.0 TFSI® (169 kW)
Remaining faithful to the sporty line: the S line packages.

The S line packages emphasise the sporty character of your Audi TT Coupé. Accentuate the dynamic body line, lend the interior even more expression or give the suspension even sportier definition for enhanced driving dynamics. And make a true athlete of your Audi.

S line exterior package*
Front and rear bumpers, side sill trims, side radiator grilles and diffuser insert in distinctive sporty design
Radiator grille in high-gloss black
Diffuser insert painted in platinum grey
Door sill trims with S line logo
S line emblem on the front wings

As unmistakeable as your own standards: the Audi design selection.

The Audi design selection offers you an aesthetic pre-selection of particularly exclusive materials and colours for the interior. The aluminium drift anthracite inlay in conjunction with the fine leather upholstery and trim in murillo brown or admiral blue with attractive contrasting stitching gives the interior a sporty and exclusive ambience.

Audi design selection murillo brown*

The Audi design selection murillo brown includes the following equipment items:

- S sport seats, front
- Seat restraints in fine Nappa leather, murillo brown, with contrasting stitching in steel grey
- Seat centre panel with diamond pattern, murillo brown, with contrasting stitching in steel grey
- Jukebox in brown and black
- Console trim and instrument panel cover, stone grey, with contrasting stitching in murillo brown
- Gearknob in brown and black
- Bottle holder in brown and black
- Colour-coordinated interior elements in chrome coating, slate grey, on the side seat trims, the striking handle on the centre console and the inner ring of the vents
- Fine leather upholstery and trim in murillo brown or admiral blue with attractive contrasting stitching
- Automatic air conditioning with automatic climate control and adjustment of the backrest side bolsters

*Optional
You have an exclusive character. So why shouldn’t your Audi have one too?

That the Audi exclusive range aspires to exclusivity is already evident from its name. Coloured leather can be combined with customised paint finishes from the large selection of Audi exclusive colours to suit your own personal preferences. So you can highlight your car’s exceptional character to even better advantage.

Your Audi partner and the Audi exclusive Studio of the Audi Forum Neckarsulm, Germany await your wishes.

Audi TT Coupé with Audi exclusive

- customised paint finish in mamba black*
- Audi exclusive black gloss package
- Audi exclusive leather upholstery and trim (package 1) in fine Nappa leather in black/calendula yellow with contrasting stitching in calendula yellow
- Audi exclusive extended leather upholstery and trim in black with contrasting stitching in calendula yellow
- Audi exclusive leather controls in black with contrasting stitching in calendula yellow

*Optional
Your Audi is painted not just once. But four times.

When you choose a paint colour, choose one that best reflects your own personality. But whichever colour you opt for, you can count on the outstanding quality of our painting process. Though no thicker than a human hair, the layer of paint on an Audi is actually made up of four different coats. So not only do you look radiant in your Audi, the car is also optimally protected from environmental influences and wear. For its entire lifetime.

Quality given form.
And a brilliant finish.
Audi wheels.

To make sure you have peace of mind for every metre of your drive, Audi puts its wheels through an exacting series of specialised test procedures. Hardness tests, for example, aim for maximum stability, while a Copper Accelerated Salt Spray Test – CASS for short – using acetic acid guarantees the greatest possible corrosion protection. Thanks to these and many other measures, we can ensure that every Audi wheel offers maximum quality – even after scores of kilometres.
Premium quality you can rely on.

You have a special place in your Audi. Exclusive comfort can be felt on the front and rear seats: thanks to high-quality materials and first-class workmanship. No matter which seat upholstery you choose and whether you prefer sport seats or S sport seats for dynamic driving: you’re sitting in the right place.

¹ Available only with S sport seats.
Milano leather
Extremely hard-wearing and durable leather that gives a high-quality impression with its fine, grained surface. Fully penetrated with dye and tanned without the use of chromium, the leather provides outstanding surface protection thanks to the painted coat.
For sport seats, front:
- seat centre panel and door trim inserts in Milano leather, black
- seat side bolsters, head restraints and centre armrest, front (if ordered) in Milano leather, black or grey
- seat centre panel with diamond pattern

Fine Nappa leather*
High-quality, supple leather with a balanced lacquer coat. It has air-permeable properties thanks to its natural surface, thereby contributing to a pleasant seating climate. The leather is extremely hard-wearing, durable and resistant to fading. It is fire- and colour-fast.
For sport seats, front:
- seat centre panel, seat side bolsters, head restraints and centre armrest, front (if ordered) in Fine Nappa leather, black, red or grey in zippable grey
- seat centre panel with diamond pattern
- seat-rear seat piping in Fine Nappa leather

Leather upholstery and trim

Alcantara/leather combination*
Exclusive, sporty look for sport seats; high seating comfort and a good seating climate thanks to rapid temperature equalisation; particularly hard-wearing, easy to clean and resistant to wear and tear. The material is extremely easy to care for, thereby saving time and effort. For dynamic driving styles, the Alcantara seat centre panels provide good support, making them especially suitable for dynamic driving styles. The Alcantara seat side bolsters made from the front seat box complete the seat.
For sport seats, front:
- seat centre panel and door trim inserts in Alcantara, black
- seat side bolsters, head restraints and centre armrest, front (if ordered) in leather, black
- seat centre panel with diamond pattern

Cloth/leather packages

Leather package*
Armrests in the doors, door pull handles and trim on the centre console in black leather.
Extended leather package*
Armrests in the doors, door pull handles and trim of the centre console in leather, black or colour coordinated to the respective interior colour, as well as steering wheel: collapsible collar trim and instrument panel cover in leather, black.
Alcantara/Fine Nappa leather upholstery packages:
For Sport seat:
- seat centre panel and door trim inserts in Fine Nappa leather, black or grey
- seat side bolsters, head restraints and centre armrest, front (if ordered) in leather, black or grey

Leather covering for armrests in the doors, centre console and instrument panel cover. Individual choice of colour for the leather and the stitching from the range of seat material colours.

Seat comfort

Front seats, electrically adjustable
For sport seats and S sport seats with electrical adjustment of seat height, fore/aft position as well as seat and backrest angle, including a 4-way lumbar support; for S sport seats additionally with manual adjustment of seat depth.

Centre armrest, front
Adjustable angle and adjustable lengthways, including additional hinged cup holders.

Front seat support for the front seat backrests, with horizontal and vertical adjustment.

Printed decoration of the backrest side bolsters³:
For sport seats, electrically adjustable, and printed decoration of the leather-covered side bolsters and personal carbon support.

Fixated on quality.
With Audi seats, you are not only on elegant materials and top-class workmanship, but also on comprehensive testing procedures as well. Audi tests the quality of all seat leather in its own laboratory, for instance. 45 tests are used to determine the durability alone. The leather samples have to show how evenly they stretch, where they start to tear and when they start to develop folds, how abrasion proof and flame resistant they are. Only leather that passes all the tests with flying colours is used for Audi seats.
Experience fascination.
Down to the last detail.

Exclusive ambience is a question of style. Your style. A style you can refine right down to the last detail. Create tangible accents with high-quality Audi inlays. Take pleasure in the fine aluminium detailing, partly embossed, partly brushed. Harmoniously integrated into the interior. Exuding a sporty attitude. Creating an ambience that accentuates the dynamic presence of your Audi in the interior too.

*Optional
**Headlights**

- **High-beam assist**
  - Improved driver’s visibility and measures a new obstacle ahead by the vehicle's front bumper and the lane of the road. The radar sensors are automatically activated when the vehicle starts moving. The high beam is automatically switched on or off depending on the road conditions.

- **Lights on function**
  - Can be set to turn on automatically when the vehicle is locked or unlocked.
  - The LED daytime running lights are illuminated in addition to the headlamps and the lights on function below.

- **Night-time vision**
  - Active headlight range control: The headlamps can scan a section of the road ahead with a range of up to 1.5 km.

**Lighting package**

- **LED headlights**
  - Daylight running lights: The vehicle is illuminated from the moment it starts moving. The LED daytime running lights and the dipped beam are activated in this mode. In tight corners, the dipped beam is activated with a range of up to 20 m.

- **High-beam assist**
  - The innovation technology with a combination of camera systems and LED light sources enables an adaptive control of the headlight range in real-time, which is automatically activated when the vehicle comes to a stop. The option activates the area in front of the vehicle and automatically switches the high beams on or off depending on the road conditions.

- **LED rear lights**
  - The daytime running lights and the dynamic indicator function have been implemented in the same light guide featuring a dynamic and quickly recognisable lighting pattern. The segments of the LED rear lights, but additionally featuring a dynamic and quickly recognisable lighting pattern, are illuminated in turn within milliseconds, creating a pulse of light that runs outwards in the chosen direction in which the car is turning. When operating, the light pattern sends a distinctive, innovative signal to other road users.

- **Brake lights**
  - Adaptive brake lights: The brake lights are automatically activated when the vehicle comes to a stop.

- **LED lights on function**
  - Light sensor: Automatic control of lights-on function, windscreen light/rain sensor: The vehicle is illuminated when it is parked outside in the rain and is automatically switched on or off when it is parked in dry weather.

- **Parking/locking system**
  - Parking/locking the vehicle: Includes windscreen wipers and headlamps.

- **Optional features**
  - Headlight cleaning system.
  - Anti-glare lighting in energy-saving and long-lasting LED technology: comprises:
    - **Automatic headlight cleaning**
    - **Light and rain sensors**
  - Parking/opening the vehicle: includes windscreen wipers and the lights-on function when the vehicle is locked.

- **Other features**
  - Xenon plus the LED daytime running lights when the vehicle is locked.

**Lighting package**

- **Interior lighting**
  - Lighting package: Comprising:
    - **LED headlights**
    - **High-beam assist**
    - **LED rear lights**
    - **Brake lights**
    - **LED daytime running lights**
    - **Front and rear lights**
  - Anti-glare lighting in energy-saving and long-lasting LED technology: comprising:
    - **Automatic headlight cleaning**
    - **Light and rain sensors**
  - Headlight cleaning system:
    - **Automatic headlight cleaning**
    - **Light and rain sensors**
  - Parking/opening the vehicle:
    - **Windscreen wipers**
    - **Headlamps**

**Exterior design**

- **Audi exclusive black gloss package**
  - Adds black highlights to the exterior of the Audi TT, the front spoiler, the side windows and the exhaust tailpipes.

**Interior lighting**

- **Light and rain sensors**
  - The sensors are mounted above the rear view mirror. When operating, they send a distinctive, innovative signal to other road users.
**Storage/transport**

Deluxe automatic air conditioning with innovative operating logic in the vents, with integrated display, electronic regulation of air temperature, air flow rate and air distribution; defroster nozzles for the windscreen and side windows; automatic recirculation mode by means of air quality sensor, sunlight-dependent control, air intake control and combined filter; with humidity sensor and key-coded settings.

**Storage and luggage compartment package**

Flexible transport of objects and convenient for travel; comprising storage nets on the back of the front-seat backrests and in the front-passenger footwell, storage compartment under the driver and front-passenger seats and 2 high-visibility vests; in the luggage compartment:
- 2nd luggage compartment light in LED
- luggage compartment net
- retaining strap at the side
- 12V socket.

**Cigarette lighter and ashtray**

Removable; chrome-plated cover with Audi rings, cigarette lighter replaces the standard 12V socket in the centre console.

**Closing systems**

Remote control key
- unlocks and locks doors, luggage compartment lid and tank flap; including convenience closing/opening of the windows; the engine is started and stopped using the engine start-stop button.

Convenience key*
- access authorisation system where the key needs only to be carried with you; the vehicle is unlocked and locked from the outside via sensors on the driver and front-seat passenger door handles. Opening of the luggage compartment is possible even when the vehicle is locked. Including optical distinction on the top or bottom of the key.

*Optional

---

**Motion**

- Sunroof
  - Sunroof motor, heated, electrically folding and automatically cleaning on both sides including thermal protection windows and intelligent cleaning logic for the exterior mirror on the passenger side.

- Exterior mirror automatically cleaning with high-pressure washer and awnings with grey strip.

**Climate control**

Deluxe automatic air conditioning with innovative operating logic in the vents, with integrated display, electronic regulation of air temperature, air flow rate and air distribution; defroster nozzles for the windscreen and side windows; automatic recirculation mode by means of air quality sensor, sunlight-dependent control, air intake control and combined filter; with humidity sensor and key-coded settings.

---

**Lighting**

**Exterior mirror heated, electrically folding and automatically cleaning on both sides including thermal protection windows and intelligent cleaning logic for the exterior mirror on the passenger side.**

**Interior mirror automatically cleaning with high-pressure washer and awnings with grey strip.**

**Interior design**

Extended aluminium look in the interior with pedals and floor mats in aluminium, additional aluminium look on the window controls and interior-adjusted controls.

**Steering wheels/controls**

- Audi exclusive leather controls*
  - Leather-covered steering wheel rim, gear/selector lever knob and gear lever gaiter in Audi exclusive leather.
  - Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours.
  - Stitching on the steering wheel rim with special Audi exclusive seam detail.

- Audi TT Coupé sport contour leather steering wheel with multifunction plus
  - 3-spoke design. flattened at the bottom, with woven fabric and chrome detailing on the wheel rim and control buttons.
  - 14 multifunction buttons for the convenient operation of all the functions provided by the voice control system, navigation package or memory programmes: buttons on the top and bottom,
  - multifunction buttons for manual gear changing.

- Extended aluminium look in the interior
  - with pedals and floor mats in aluminium, additional aluminium look on the window controls and interior-adjusted controls.

---

**Mirrors**

- Exterior mirror heated, electrically folding and automatically cleaning on both sides including thermal protection windows and intelligent cleaning logic for the exterior mirror on the passenger side.

- The automatic rear view function safely adjusts the exterior mirror on the passenger side.

---

**Interior**

- Sunroof motor, heated, electrically folding and automatically cleaning on both sides including thermal protection windows and intelligent cleaning logic for the exterior mirror on the passenger side.

- Exterior mirror automatically cleaning with high-pressure washer and awnings with grey strip.

---

**Equipment**

- Light Design
- Steering wheels/controls
- Comfort
- Infotainment
- Assistance systems
- Technology/safety

---

**Remote control key**

- unlocks and locks doors, luggage compartment lid and tank flap; including convenience closing/opening of the windows; the engine is started and stopped using the engine start-stop button.

**Convenience key**

- access authorisation system where the key needs only to be carried with you; the vehicle is unlocked and locked from the outside via sensors on the driver and front-seat passenger door handles. Opening of the luggage compartment is possible even when the vehicle is locked. Including optical distinction on the top or bottom of the key.

---

**Cigarette lighter and ashtray**

- removable; chrome-plated cover with Audi rings, cigarette lighter replaces the standard 12V socket in the centre console.

---

**Storage/transport**

- Flexible transport of objects and convenient for travel; comprising storage nets on the back of the front-seat backrests and in the front-passenger footwell, storage compartment under the driver and front-passenger seats and 2 high-visibility vests; in the luggage compartment:
  - 2nd luggage compartment light in LED
  - luggage compartment net
  - retaining strap at the side
  - 12V socket.

---

**Storage and luggage compartment package**

- Flexible transport of objects and convenient for travel; comprising storage nets on the back of the front-seat backrests and in the front-passenger footwell, storage compartment under the driver and front-passenger seats and 2 high-visibility vests; in the luggage compartment:
  - 2nd luggage compartment light in LED
  - luggage compartment net
  - retaining strap at the side
  - 12V socket.

---

**Extended aluminium look in the interior with pedals and floor mats in aluminium, additional aluminium look on the window controls and interior-adjusted controls.**

**Steering wheels/controls**

- Audi exclusive leather controls*
  - Leather-covered steering wheel rim, gear/selector lever knob and gear lever gaiter in Audi exclusive leather.

- Sunroof motor, heated, electrically folding and automatically cleaning on both sides including thermal protection windows and intelligent cleaning logic for the exterior mirror on the passenger side.

- Exterior mirror automatically cleaning with high-pressure washer and awnings with grey strip.
MMI®/navigation

Audi virtual cockpit

Innovative, fully digital 31.24 cm instrument cluster for the flexible display of information tailored to the driver’s needs such as: vehicle speed/engine speed, map representation, radio/media information etc.; integration of the full MMI® functionalities in the instrument cluster. The Audi virtual cockpit is operated via the multifunction steering wheel and the MMI® control panel or MMI® touch. The VIEW button on the multifunction steering wheel allows you to change between 2 differently sized representations of the round instruments. The display with small instruments allows the onboard computer and MMI® contents to be shown on a large clear area of the display. The configuration of onboard computer values in the rev counter is possible. In conjunction with permanent display of navigation information near the speedometer when route guidance has been activated. The attention assist provides a warning in the Audi virtual cockpit and via acoustic signal (if法律规定 indicates that the driver is starting to become inattentive). The system is active between approximately 60 and 180 km/h and can be deactivated.

Entertainment

Audi sound system

Impressive sound thanks to 5-channel amplifier with a total output of 155 watts and 9 loudspeakers including centre speaker and 2 bass speakers in the doors. Audi music interface for the connection of portable media players via USB interface (including charging function) or Wi-Fi; convenient navigation through the music collection with the aid of the MMI® control panel, multifunction steering wheel or voice command.

Bang & Olufsen® Sound System*

Captivating surround sound reproduction with 12 high-performance loudspeakers including 2 centre speakers and 2 bass speakers in the doors. The 14-channel amplifier has a total output of 680 watts. Reproduction of 5.1 surround sound is possible in conjunction with MMI® navigation plus. Exclusive loudspeaker covers with aluminium applications and LED accent lighting on the front woofers. The sound is continuously adapted according to the driving and background noises picked up by the microphone.

System & Security

Bluetooth®-interface

Establish hands-free calls in the vehicle using the microphone and – depending on mobile phone compatibility – Bluetooth® audio streaming. Bluetooth®-capable mobile phones can be connected to the vehicle via the interface.

Communication

Connectivity package*

Combines the following features:

- Full main interface
- Bluetooth® interface for streaming Bluetooth®-capable mobile phones with Bluetooth® audio streaming.
- MMI® touch
- MMI® navigation plus
- Full main interface
- Bluetooth® interface for streaming Bluetooth®-capable mobile phones with Bluetooth® audio streaming.
- Connectivity package

*Optional
**Assistance systems**

**Parking system plus**

Brilliant and stylish front and rear parking system adds to parking and maneuvering. 360°-selective virtual view of the surroundings. Displays the blind spots and detects obstacles at high speeds. The front view includes a detected object outside the driving path. The rear view shows obstacles in the path while reversing. The display of surroundings warns the driver, depending on the steering angle, of any obstacles at speeds of 30 km/h and above, the system keeps the set speed constant, provides assistance when braking, or changes to thepreceding lane as soon as the distance to a detected object is less than 90 cm.

**Acoustic and visual front and rear parking system assists with parking and maneuvering. With selective visual view**

Selected systems to a consumption-improved basic equipment. The e/uniFB0ciency mode switches specifically to each individual wheel for precisely controlled, drive forces depending on the driving situation and the driving conditions. At the side of the vehicle by displaying the lane. Assisted parking is now even possible in smaller parking spaces and tight areas. Parking in several moves is supported. - Calculated via a button on the centre console. When the footbrake or the accelerator is pressed. Can change gears and apply the brakes as well as monitor the parking process. The actual steering action is performed automatically; the driver must accelerate, brake and steer. The virtual lane display additionally provides guidelines at the sides which are calculated in the driving path. A white segment indicates a detected obstacle outside the driving path. Red segments represent obstacles detected by the system. The display of surroundings warns the driver, depending on the steering angle, of any obstacles at speeds of 30 km/h and above, the system keeps the set speed constant, provides assistance when braking, or changes to the preceding lane as soon as the distance to a detected object is less than 90 cm.

**Cruise control¹**

At speeds of 30 km/h and above, the system keeps the set speed constant, provides assistance when braking, or changes to the preceding lane as soon as the distance to a detected object is less than 90 cm.

**Auto-dock assist**

Permits automatic docking to be set in the available modes auto, comfort, dynamic, efficiency as well as the virtual cockpit; including adjustable cruise control. The ideal parking path is calculated for perpendicular parking spaces, and the ideal path for leaving the parking space is additionally calculated for parallel parking spaces. The driver must accelerate, change gears and apply the brakes as well as monitor the parking process. The actual steering action is performed automatically, the driver remains responsible for driving the vehicle and is required to be attentive at all times.

**Secondary collision brake assist**

Following an accident, an external collision vehicle assists in avoiding secondary collisions. In such cases, secondary collisions can be avoided.

**Traction control**

Proprietary dual clutch transmission with hydrophilic clutch lining allows for shorter charge times and gear changes with virtually no perceivable kick in or jolt.

**ESC** with brake assist, tandem brake booster, disc brakes front/rear, ventilated at front.

**Anti-lock Brake system**

Includes parking brake function when stationary, hill hold assist. When in “D” gear, coasting mode allows vehicle characteristics to be set in the available programmes – D (Drive) and S (Sport). Includes hill holder function when stationary, maximum deceleration action includes parking brake function when stationary, maximum deceleration action.
Recuperation

-measures energy as fuel through brake energy recovery.
-brake energy is converted into usable electrical energy
-by increasing the generator voltage when the vehicle is coasting or braking and relieving the generator during subsequent acceleration.

Start-stop system

-helps to reduce fuel consumption and CO₂ emissions by automatically switching off the engine when stationary.

Airbags

-full-size airbags for driver and front passenger.
-side airbags, front, and head airbag system
-front side airbags integrated into the seat backrests and a head airbag system deploy over the side windows to protect the front and rear seat passengers in the event of a side impact.

Integrated head-restraint system

-increases safety and reduces the danger of whiplash.
-the design of the front seat better restrains the upper torso and provides stronger support for the head than conventional systems.
Audi Genuine Accessories.

As individual as the life you lead.

The Audi TT Coupé is more than just a means of travel. It is also an expression of a whole personality. Unique – partly due to Audi Genuine Accessories. These are designed so that you can personalise your Audi according to your own wishes. Benefit from customised solutions with convincing design and functionality because alongside extensive testing procedures, creativity in development and high production standards are just as decisive for Audi Genuine Accessories as for the Audi vehicles themselves. Discover which tailor-made ideas Audi Genuine Accessories have ready for your Audi. A few highlights are illustrated here – please contact your Audi partner for more information on the complete range.

Cycle fork mount
Convenient and easy to use. Lockable. Suitable for bicycles with quick-release front wheel. Also available including front wheel mount. Maximum load capacity 17 kg. Can only be used in conjunction with the carrier unit.

Premium textile floor mats and rubber floor mats
Tailor-made for the floor dimensions of the Audi TT Coupé. The floor mats are always fixed at the front using the points provided on the floor area of the vehicle.

Audi tracking system plus (not illustrated)
Enables a stolen vehicle to be located and tracked via GPS/GSM technology in 27 European countries. With automatic driver recognition and intelligent restart inhibitor. For more detailed information, please contact your Audi partner.

¹ You will find specifications on the technical characteristics of tyres on page 70.
² Only available for TT Coupé.

The fuel consumption and CO₂ emission figures can be found on page 70.
Ski and luggage boxes*

New Audi design with increased aerodynamic thanks to a flat, sports look. Platinum-grey roof box with brilliant black side blade and chrome-plated Audi rings; top-quality, rivet-free look. Can be locked and opened on both sides for convenient loading and unloading. With new quick-attachment system incl. torque restrictor. Position moved forward for better access to the luggage compartment. Available in three sizes: 300 l, 360 l (illustrated here) and 405 l. Maximum permissible load 75 kg.

Roof box bags
Sturdy yet flexible. And including a watertight floor with protective barrier to make optimum use of the Audi roof boxes. Available in 3 sizes: S (43 l), M (76 l) and L (82 l).

*Audi Genuine Accessories
* Only available for TT Coupé. When the ski and luggage box is used, the vehicle tailgate cannot be opened fully.

Business case
More room for your everyday accessories. The high-quality business case has a storage volume of approximately 14 l – enough space for a 38.1 cm laptop plus various office utensils. Can also be used outside the vehicle as an attractive briefcase. Safe attachment to the rear seat bench or to the front-passenger seat using the 3-point seat belt. Can be installed with all Audi child seats, including with ISOFIX connection.

Luggage compartment liner
Tailored made protection for the luggage compartment. Washable and sturdy. The all-round edging better protects the luggage compartment floor from leaked liquids.

**USB adapter for Audi music interface (not illustrated)**
For the connection of all iPod Apple and iPhone models and further media players to the optional Audi music interface. The media player can be operated via the infotainment system. For more detailed information, please contact your Audi partner.

**Child seat pad (not illustrated)**
Audi child seat pad matches the design of the child seats and the vehicle interior. Protects the vehicle seats from soiling and any pressure marks caused by the child seats. With 2 practical storage bags. Can be installed with all Audi child seats, including with ISOFIX connection.

**Child seat (not illustrated)**
Can be used facing forwards or backwards. MISANO RED or TITANIUM BLACK; can be used in conjunction with the ISOFIX base. Suitable for children from 9 to 18 kg (approximately 1 to 4 years). Also available Audi baby seat for children up to 13 kg (approximately 0 to 12 months) and Audi child seat youngster plus for children from 15 to 36 kg (approximately 4 to 12 years).
Model TT Coupé

45 TFSI® quattro® (169 kW)

Engine type 4-cylinder inline petrol engine with direct fuel injection, turbocharging and indirect intercooling

Displacement in cc (valves per cylinder) 1,984 (4)

Max. output¹ in kW at rpm 169/4,500–6,200

Max. torque in Nm at rpm 370/1,600–4,300

Power transmission/wheels

Drive type quattro® permanent all-wheel drive

Transmission type [6-speed S tronic®]

Wheels Cast aluminium wheels, 8.5J x 18

Tyres 245/40 R18

Weights/capacities

Unladen weight² in kg [1,410]

Gross vehicle weight in kg [1,735]

Fuel tank capacity, approx. in l [55]

Performance/consumption³

Top speed in km/h [250]

Acceleration 0–100 km/h in s [5.3]

Fuel grade Sulphur-free super RON 95/uni2074

Fuel consumption/uni2075 km/l

Technical data

Dimensions

Explanatory notes

¹ The figure given was calculated using the specified measuring procedure (current version of Directive 2007/7/EC).

² To avoid incorrect mileage readings and increase accuracy, it would be advisable to use sulphur-free fuel.

³ How efficiently the vehicle uses the fuel, but are also influenced by driving behaviour and other non-technical factors. The figures given for fuel consumption and CO₂ emissions refer to each illustrated standard wheel/tyre combination and may change if different wheel or tyre dimensions are selected. CO₂ is the greenhouse gas primarily responsible for global warming.

We recommend using sulphur-free super unleaded (RON 95, fuel compliance with 06/2/2008/EC) for best performance. Unleaded RON 95 fuel with a maximum ethanol content of 10 % (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 06/2/2008/EC.
The fascination of Audi can be experienced in many different ways. Audi City in London, for example, gives you digital access to all models at their actual size and in real time. Audi’s future is always worth visiting one of the major motor shows. This is where Audi always presents its new models and invites you to have a look at how the future is being shaped with “Vorsprung durch Technik”. Anyone interested in seeing how Audi is already putting this into practice will find fascinating insight in the “Vorsprung durch Technik” online special at www.audi.com.

But a look back can also be rewarding: at the Audi museum mobile in Ingolstadt, history and high-tech go hand in hand. A total of 130 historic exhibits and state-of-the-art forms of presentation make for a thrilling symbiosis. Plus, Audi driving experience allows you to live the excitement and countless possibilities of current Audi models. Here, pure driving enjoyment is combined with valuable learning effects. This is ensured by a team of specially trained and highly qualified instructors who provide practical tips to help you optimise your driving skills. All this can now also be enjoyed at the recently opened Audi driving experience center in Neuburg, near Ingolstadt. Facilities here include a circuit of up to 3.4 kilometres that features challenging combinations of bends, a 30,000 m² dynamic driving area and an off-road section where Q models can be put through their paces.

Motorsport is a driving force behind the brand. For years Audi has been among the champions in various racing series, for instance the 24 Hours of Le Mans or the DTM German Touring Car Masters. The values that are crucial in many different areas of sport are also central ones for Audi: precision, passion and technology. No coincidence then that Audi has been sponsoring sporting events for many years. In the world of winter sports, for example, Audi has been the main sponsor of the German Ski Association (DSV) for almost three decades and has also partnered 14 other national alpine teams. In football, we support national and international teams. And Audi is also a partner for the German Olympic Sports Confederation.

Choosing an Audi means choosing a brand that offers more. More individuality. More exclusivity. More fascination.
